EDUCATION

Georgia Institute of Technology, Atlanta, Georgia, USA

- Ph.D. in Computer Science Aug 2016 – Jul 2020
Thesis: “Combining Natural Language and Direct Manipulation for Human-Data Interaction through Visualizations” [ **IEEE VGTC Best Dissertation Award**]
Research areas: Human-Computer Interaction, Information Visualization
Advisor: Dr. John Stasko
- M.S. in Computer Science Aug 2014 – May 2016
Specialization: Visual Analytics

R.V. College of Engineering, Bangalore, Karnataka, India

- B.E. in Information Science Aug 2009 – Jun 2013

EXPERIENCE

Salesforce (Tableau) Research, Seattle, Washington, USA

Lead Research Scientist

Oct 2020 – Nov 2023 | Jan 2025 – Present

Working on research at the intersection of human-computer interaction and information visualization.

- Filed 15+ patents in the areas of natural language & multimodal interaction, accessibility, and visualization recommendation.
- Built prototypes and conducted user research to inform query and recommendation features in Einstein Copilot for Tableau ([blog](#)) and accessibility-focused features including alt-text generation ([release note](#)) and keyboard-based chart navigation ([blog](#)).

Databricks, Seattle, Washington, USA

Software Engineer

Dec 2023 – Dec 2024

Developed interactive visual querying and natural language-based chart authoring features in Databricks AI/BI dashboards.

Microsoft Research, Redmond, Washington, USA

Research Intern, Mentor: Dr. Bongshin Lee

May 2019 – Aug 2019

Developed multimodal interfaces for data visualization with the EPIC (Extended Perception, Interaction & Cognition) Research Group.

Adobe Research, Seattle, Washington, USA

Research Intern, Mentor: Dr. Mira Dontcheva

May 2018 – Aug 2018

Explored user interface techniques to enhance discoverability of speech input in multimodal interfaces.

Microsoft Research, Redmond, Washington, USA

Research Intern, Mentor: Dr. Steven Drucker

May 2017 – Aug 2017

Designed and evaluated techniques to facilitate visual comparison in data visualization dashboards.

Salesforce, San Francisco, California, USA

Software Engineering Intern, Analytics Cloud

May 2016 – Aug 2016 | May 2015 – Aug 2015

Developed a visualization system for real-time monitoring and diagnosis of service queues across data centers in a multi-tenant cloud architecture.

SAP Labs, Bangalore, Karnataka, India

Associate Developer, SAP HANA Cloud Integration

Jul 2013 – Apr 2014

Worked on business process integration solutions, focusing on R&D of database refactoring and migration techniques.
